Dates: 1989-2019

Creator: Transplant Support Group (Columbia, MO.)

Collection Size: 1 c.f.

Introduction

The records of a former Transplant Support Group connected to the University of Missouri Heart Transplant Program. The MU Heart Transplant Program existed from 1989-2002, and was dissolved due to financial constraints, however, the support group continued until 2019. In 2019 the decision was made to disband the group due to loss of several members and the fact transplants were still not occurring. The records include meeting minutes, photographs, clippings, publications, Calanders, newsletters, financial documents, membership information, and correspondence.

Donor Information

The records were donated to the SHSMO by Sandra Basu on April 17, 2026.
