INTRODUCTION

The Missouri Church Records consist of newsletters, conference proceedings, reports, directories, journals, and other publications of various religious denominations in Missouri including the Methodist, Baptist, Disciples of Christ (Christian), Presbyterian, and Catholic churches.

DONOR INFORMATION

The Missouri Church Records were transferred from the State Historical of Missouri Reference Collection to the Manuscript Collection on 21 March 2002 (Accession No. 5910). Additional records have continued to be transferred since then.

SCOPE AND CONTENT

The Missouri Church Records are primarily records from various religious denominations in Missouri. They were originally bound and shelved as uncataloged material in the State Historical Society of Missouri Reference Library and later transferred to the Manuscript Collection. In some cases, especially with the Baptist records, the denomination varies; some publications might be simply listed as Baptist, others as Primitive Baptist, even though the dates of the items indicate that they are probably from the same organization. The researcher should check all possible denominations when looking for records. The Baptist records are also the largest part of the records, followed by the Presbyterian and Methodist records.

The denominations in the records include:
