**Restrictions on Use:** The materials in the collection are in the public domain.

**Preferred Citation:** [Specific item; box number; folder number] *Paul Paquin Papers* (C1024); The State Historical Society of Missouri Research Center-Columbia [after first mention may be abbreviated to SHSMO-Columbia].

**Donor Information:** The papers were donated to the State Historical Society of Missouri by an unknown donor.

**Processed by:** Processed by the State Historical Society of Missouri Research Center- Columbia Staff, date unknown. Finding aid revised by Erin Kraus on May 4, 2020.

### **Biographical Note:**

Paul Paquin was born in Montreal, Canada, on June 22, 1860. He received a degree in medicine from McGill University and then came to the University of Missouri. In 1886 he went to Europe

to study with renown scientists there such as Pasteur and Latteux. He returned to Missouri to become a professor of histology in the School of Medicine. Pauqin became Missouri's first state veterinarian and later he was the director of health in Kansas City. Paquin died on June 23, 1916, of tubercular meningitis.

### **Arrangement:**

The collection has been arranged into the following series:

Papers

### **Scope and Content Note:**

#### **Papers**

This series contains correspondence and papers of Paul Paquin, Missouri State Veterinarian and founder of the pathology and hygiene laboratories in the Missouri State University before the main building burned in 1892. Includes letters to and from his assistants as well as stock-raisers and personal acquaintances.

### **Container List:**

- f. 1-15 Contains correspondence of Paul Paquin to his assistants directing their attention to diseased animals throughout Missouri, the quarantine regulations governing animals with contagious diseases and the inspection of the major stockyards. Letters from stock raisers requesting information on available cures for different animal diseases. Information pertaining to the use of crude oil in the treatment of hog cholera. Includes numerous descriptions of Texas Fever and glanders symptoms as well as other diseases as reported by stock-raisers. Role of Veterinary Act of 1889 in quarantine and killing of certain diseased animals and compensation to owners.
- f.16 Pamphlets and circulars contain information pertaining to quarantine regulations governing the transportation of Southern cattle; a copy of Governor D.R. Francis' Quarantine Proclamation of March 27, 1891, for Missouri which gives directions for handling Southern cattle and for disinfecting areas in which these cattle are kept. Includes a map of a stockyard.
