

## **University of Missouri, Laws Observatory Records (C3401)**

**Collection Number:** C3401

**Collection Title:** University of Missouri, Laws Observatory Records

**Dates:** 1877-1954

**Creator:** University of Missouri

**Abstract:** Correspondence, class materials, reports, publications, and observing records of the observatory.

**Collection Size:** 6.2 cubic feet  
(300 folders)

**Language:** Collection materials are in English.

**Repository:** The State Historical Society of Missouri

**Restrictions on Access:** Collection is open for research. This collection is available at [The State Historical Society of Missouri Research Center-Columbia](#). If you would like more information, please contact us at [columbia@shsmo.org](mailto:columbia@shsmo.org). Collections may be viewed at any research center.

**Restrictions on Use:** The donor has given and assigned to the University all rights of copyright, which the donor has in the Materials and in such of the Donor's works as may be found among any collections of Materials received by the University from others.

**Preferred Citation:** [Specific item; box number; folder number] *University of Missouri, Laws Observatory Records* (C3401); The State Historical Society of Missouri Research Center-Columbia [after first mention may be abbreviated to SHSMO-Columbia].

**Donor Information:** The records were donated to the University of Missouri by Terry W. Edwards on June 29, 1967 (Accession No. CA3727). An addition was made by Charles J. Peterson on March 30, 1984 (Accession No. CA4565).

**Processed by:** Processed by the State Historical Society of Missouri Research Center-Columbia Staff, date unknown. Finding aid revised by Laura Jolley on January 28, 2021.

**Historical Note:**

The Laws Observatory was established in 1879-1880 when Professor Joseph Ficklin arranged for the University to acquire the 7 ½ inch telescope of Shelby College in Kentucky for \$500 and the University's old telescope. University President S. S. Laws paid for the new equipment himself in addition to the enlargement of the observatory building. After the retirement of Professor Eli S. Haynes in 1950, the astronomy department was rolled into the physics curriculum.

**Arrangement:**

The collection has been arranged into the following five series:

Correspondence  
Lecture Notes and Examinations  
Astronomical Observations  
Miscellaneous  
Publications

**Scope and Content Note:****Correspondence**

The correspondence series includes letters written by various members of the department such as Milton Updegraff, F. H. Seares, R. H. Baker, Eli S. Haynes, Frank N. Edmonds, Jr., and Richard D. Levee, 1877-1954.

**Lecture Notes and Examinations**

This series contains course work for R. H. Baker, Eli S. Haynes, Frank N. Edmonds, Jr., T. J. J. See, and Milton Updegraff. Also includes some student papers.

**Astronomical Observations**

This series includes the records of observation made at the Laws Observatory, filed alphabetically by constellation.

**Miscellaneous**

Cards which accompanied 100 slides from the Yerkes Observatory, giving description and explanation. Slides are not included. Grade books, one each from student days of Harlow Shapley and C.C. Wylie.

**Publications**

This series includes No. 1-34 of the *Laws Observatory University of Missouri Bulletins*.

**Container List:**

- f. 1              Correspondence, 1877-1889 - Correspondence about obtaining 7 1/2 inch refracting telescope from Shelby College; circumstances of

- purchase of telescope and reasons for naming observatory for S.S. Laws, president of the University; instruments and accessories for the telescope.
- f. 2-7 Milton Updegraff Correspondence, 1890-1900 - Maintenance problems of the observatory; reports and inventories; correspondence on work to establish longitude, latitude, and height above sea level of Columbia, Missouri and of the Laws Observatory; correspondence with opticians and instrument makers.
- f. 8-22 F.H. Seares Correspondence, 1901-1910 - Correspondence exclusively with instrument makers and opticians about equipment for the observatory.
- f. 23-50 R.H. Baker Correspondence, 1911-1922 - Correspondence with other astronomers, primarily Frank Schlesinger and R.H. Curtiss, about research and personal matters, and with instrument makers about equipment for the observatory. Baker was on leave during the 1922-1923 academic year.
- f. 51-122 Eli S. Haynes Correspondence, 1923-1950 - Primarily material on University committee work, keeping the observatory in good repair, and meteors and meteorites.
- f. 59 Move of Morrison Observatory to Central College in Fayette.
- f. 70-81 Meteorite fall near Archie, Missouri, in 1932, and Haynes' work on it.
- f. 114 Letter, 1944, from Haynes to Dean W.C. Curtis stating direction Astronomy Department should take after World War II.
- f. 123-135 Frank N. Edmonds, Jr., Correspondence, 1950-1952 - University correspondence about renovation of the observatory building and with S. Chandrasekhar about research matters.
- f. 136-142 Richard D. Levee Correspondence, 1952-1954 - General correspondence on University matters and answering questions on astronomy. Also material on tennis team, for which Levee served as coach.
- f. 143-153 Lecture Notes and Examinations, 1910-1953
- f. 143-148 Lecture notes of R.H. Baker, 1910-1918
- f. 149-151 Notes and examinations of Eli S. Haynes, 1924-1942
- f. 152 Syllabus and examinations of Frank N. Edmonds, Jr., 1950-1952
- f. 153 "The Teaching of Astronomy as a Cultural Project," and list of astronomy books for popular reading
- f. 154-165 Early Studies, 1882-1899 - Papers primarily concerned with establishing the latitude, longitude, and height above sea level of the observatory.
- f. 154-158 Milton Updegraff, "Determinations of the Latitude, Longitude and Height above Sea-Level off the Laws Observatory..., Containing a description of the building and principal instruments."
- f. 160 Latitude study by T.J.J. See, 1887
- f. 166-223 Astronomical Observations - Records of observations made at the Laws Observatory, filed alphabetically by constellation.
- f. 166 Andromeda
- f. 167 Aquila
- f. 168-169 Auriga

- f. 170 Camelopardus
- f. 171 Canes Venatici
- f. 172 Capricornus
- f. 173-180 Cassiopeia.
- f. 181-182 Cephus
- f. 183 Cetus
- f. 184-185 Corona Borealis
- f. 186 Crater
- f. 187-192 Cygnus
- f. 193 Delphinus
- f. 194-195 Draco
- f. 196 Gemini
- f. 197-208 Hercules
- f. 209 Hydrus
- f. 210 Lacerta
- f. 211 Lyra
- f. 212 Monoceros
- f. 213 Ophiuchus
- f. 214 Orion
- f. 215 Pegasus
- f. 216 Perseus
- f. 217-220 The Pleiades
- f. 221 Sagitta
- f. 222 Sagittarius
- f. 223 Scutum
- f. 224-250 Astronomical Observations - Records of observations made at the Laws Observatory, filed alphabetically by constellation and miscellaneous notes and measurements.
  - f. 224 Serpens
  - f. 225-226 Taurus
  - f. 227 Ursa Major
  - f. 228 Ursa Minor
  - f. 229 Virgo
  - f. 230 Vulpecula
  - f. 231 North Polar Sequence
  - f. 231A Miscellaneous unidentified observations
  - f. 232-246 Reductions
  - f. 247 Material on eclipsing binaries
  - f. 248-249 Notes and other material on Laws Observatory Bulletin No. 20
  - f. 250 R.H. Baker paper on photographic photometry
- f. 251-295 Observing Books
  - f. 251-258 Blue books with measurements of Lyra, Auriga and miscellaneous stars and inventory of plates
  - f. 259-286 Notebooks containing records of photometric observations, 1902-1913, made with wedge and Zollner photometers. Volumes 1-25, and three unnumbered
  - f. 287-292 Observing books, 1901-1911, volumes 1-4, 6,7
  - f. 293-295 Records of work with 5-inch camera, 1913-1918, 3 volumes

- f. 296-297      Miscellaneous - Cards which accompanied 100 slides from the Yerkes Observatory, giving description and explanation. Slides are not included. Grade books, one each from student days of Harlow Shapley and C.C. Wylie.
- f. 297-300      Publications, University of Missouri Observatory Bulletins
