This collection is available at The State Historical Society of Missouri, Research Center-Columbia. If you would like more information, please contact us at research@shsmo.org.

**Dates:** 1951-2000

**Creator:** KOPN Radio

**Collection Size:** 105.9 cubic feet (includes 1,423 audio tapes, 505 audio cassettes, 1 CD, 1 computer disk, 3 DAT tapes), 7 video cassettes, 3 oversize items, 349 GB of digital files

**Introduction**

Records of the organization include audio tapes from the locally produced Children’s Radio Theater, Poetry Readings, live performances, and assorted miscellaneous recordings; correspondence; newspaper clippings; newsletters; grant materials; staff meeting minutes; brochures; and miscellaneous material. Also includes records of the Missouri Theater Radio Workshop, including administrative files, grant applications, photographs, scripts, and audio cassettes from the project.

**Donor Information**

The records were donated to the University of Missouri by David R. Taylor, Patricia M. Watkins, and Ryan Kind on behalf of KOPN on 7 April 2003. From September 2020 to May 2021, Tom Pilcher, General Manager, loaned CDs for copying digital files. An addition was made by Kay Bonetti Callison on 9 November 2020.

**Note:** Some of the audio tapes in the collection were digitized by KOPN and the radio station later loaned the CDs to SHSMO to copy and add the digital files to the collection. The list of digital files can be found at the end of the inventory. Some digital files have no analog counterpart and are only available digitally. The digital files have largely been grouped into folders pertaining to the station’s programming themes; the filenames have been retained as they were received.

**Box List**

**Box 1**
Missouri Theater Radio Workshop
Scripts, 1980-1990
