Introduction

Approximately 33 cubic feet

The collection consists of architectural drawings and other records for Joseph Oshiver, a Kansas City area architect. Materials include items related to the Sacred Structures, the Jewish Community in the Kansas City area, and other personal and professional activities.

Joseph Jerome “Joe” Oshiver was born on July 18, 1922, in Philadelphia, Pennsylvania, to Harry J. and Rebecca Oshiver. His architectural studies at the University of Pennsylvania were interrupted in 1942 when he enlisted in the United States Army. Oshiver served in both the European and Pacific Theaters during World War II. He completed his studies in architecture at the University of Illinois and after graduation was employed by the architectural firm of Becker and Becker in New York City, New York.

In 1963, Oshiver moved back to Kansas City, Missouri, and became engaged with the American Institute of Architects (AIA) by creating a tour program that integrated history of the buildings and facts about the community that would eventually lead into the renovation of the Power and Light District and 18th and Vine.

In 1948, Oshiver married Theodora “Teddy” R. Reichman in Kansas City, Missouri. He died on October 3, 2016, in Overland Park, Kansas, and is buried at Mount Carmel Cemetery in Raytown, Missouri.
