Introduction

Approximately 20 cubic feet

Bonnie Hart pursued a private campaign to protest and oppose nuclear power. She wrote to legislators and newspapers, made numerous calls to radio programs, and collected a large newspaper clippings file about the hazards of nuclear energy. Known as the Atomic Lady, Hart was a major source of information for other anti-nuclear activists. The collection primarily contains Hart's large newspaper clipping file and her book and magazine collection. In addition to nuclear power, topics of interest include Vietnam, the space program, and various political campaigns. The papers include several folders of the correspondence she received from legislators in response to her letters expressing her anti-nuclear stance.
